SUBJECT : Use of Federal Records Centers for Agency Records

1. Recently, I asked the Director of Security to re-examine the Agency policy on the use of Federal Records Centers for the permanent storage of Agency inactive records. 2. I intend to lend my full support to obtain the Director's approval of the significant changes in Agency policy this recommendation entails. As a first step I shall, within the next two weeks, brief the Executive Director-Comptroller and the other Deputies on this proposal seeking their concurrence and acceptance. As a part of this briefing I wish to emphasize that our Directorate is taking immediate steps to transfer certain collections of Support records for storage at WNRC. Upon approval of the Director these collections will be the first transferred to WNRC.

3. The Records Administration Branch of the Support Services Staff has at my request identified some 10,000 cubic feet of DDS inactive office records [REDACTED] which are Secret and below and over two years old, many of them ten and fifteen years old. For example, the Office of Security has 2,000 cubic feet of Security Case Files which might be transferred for permanent storage at WNRC under this new policy. Logistics has 900 cubic feet of requisition and contracts, Personnel has 600 cubic feet of personnel files, Medical Services has 500 cubic feet of medical folders, and the Office of Finance has 6,000 cubic feet of finance vouchers and support papers [REDACTED]. The foregoing figures may be considered as a point of departure from which each office should carefully review all of its inactive files [REDACTED] for possible transfer.
